Snow is soft and light  
It is also very white  
You can roll it into a ball  
Until it gets really tall

You can play in it all day  
It will melt the day away  
You can sled down a hill  
But don't run into a mill

There might not be sun  
But it's still a lot of fun  
It gets cold in the night  
So don't get frost bite

We like to build snowmen  
And we named one Glenn  
I like to make snow angels  
And a lot of icicles dangle
